Subject: Draft IGTT notes

All - I took my notes and Tami's notes (which were remarkably consistent!) and organized the input into categories. I'd like if you all could take a look at this and add additional comments or input that you heard at the meeting. This does not include the input on the CDs we got during the small group sessions - that was recorded separately. Please send me additional comments or revisions and I'll incorporate them so we have one document.

Phil - I was thinking we could use this to go over the meeting on tomorrow's technical call and see if the larger group heard any additional input. Is that OK?
